

Instructions for Arrival and Departure

Arriving

- Unlock the apartment using the keys in the top and bottom locks. The top lock is double locked.
- Turn on electricity - the switch is a button inside the wardrobe (on the left as you enter the apartment) shoulder height on the back wall - twist clockwise.
- Turn on water - this is in the cupboard outside the apartment. It is the second door on the right of the front door as you look at it from the outside. It is marked 'eau'. There is a big red screwdriver in the cutlery drawer (top left draw in the chest of drawers) that will open the cupboard. You will need to turn on the hot and cold taps. The hot is the red tap - just turn a half rotation. The cold needs to be turned on fully. Be careful not to turn the water off for the rest of the building. Ours are the **horizontal** pipes.
- Turn on the fridge. Don't put it on maximum as it will freeze up! Put it on high to get it cold and then put it down again when it has reached temperature.
- Put doormat outside.
- Please use bin liners to line the pedal bin - use plastic shopping bags or buy small black bin liners from the supermarket.
- Put any of our clothes that have been left at the front of the wardrobe, right to the back so they don't get in your way.
- Sit down and have a beer or a glass of wine!
- Help yourself to the Pastis and Genepie but please replace the bottle if you finish it.
- You **must** use the mattress protectors provided on the bunks and also on the clic-clac settee.
- The password for the wifi is sapporofranceloc
- The code for the ski locker room after normal opening hours is 1739
